Correction spray for stainless steel coatings

Applications:

Stainless steel spray can be used to touch up stainless steel coatings. It protects against rusting and is resistant to abrasion. It adheres to metals.

Instructions for use:

- Thoroughly clean and dry base material.
- Remove any rust.
- Ensure that the aerosol is at room temperature (16 - 20° C) and shake well.
- When the metal ball can be heard, continue shaking for approx. 2 more mins.
- Spray thinly from a distance of 25 – 30 cm in a criss-cross action

Packaging

Stainless Steel –Spray is available in 400 ml aerosol cans.

Safety

The container is pressurized. Protect from sun and temperatures above 50° C . Do not open forcibly or burn, even when empty. Do not spray people. Keep away from naked flames and incandescent materials. Keep away from sources of combustion – do not smoke -. Keep away from children. Only use in well-ventilated areas.

Disposal advice

Do not dispose of the can in the domestic waste. Discard the totally emptied can into the recyclable waste container (green dot)
